“I worked with the Turcotte Stickhandling Hockey School for several years. It really helped me refine my stickhandling skills. Every young player should attend their school. It worked for me and I know it will work for you.”  
– *Martin St.-Louis*

“I attended Turcotte Stickhandling as a youth hockey player and there are a lot of my fellow pros that also went through their program. I highly recommend it to every player that intends to go further in their career. Learning the moves is fun and the benefits are priceless.”
